

K-Love 90.1 radio station is a daily encouragement to me and my family. I never have to be concerned about the content of any of the songs or conversations heard on this station. They are 100% what they say they are, positive and always encouraging. There are countless stories in the media of people who were motivated in a negative way by words to a song that lead them to do something destructive. If this station were removed it would just be taking away a wonderful instrument of encouragement to people who need it. People who are concerned about each other are always an asset to every community and this station encourages that.
